Donate Blood at Peckham Industries!

According to the American Red Cross, every two seconds someone in this country needs blood, whether it's the entirety of that blood, red blood cells, platelets, or plasma. Blood is essential for cancer treatment, surgeries, chronic illnesses, and traumatic injuries. Importantly, a single donation can potentially save up to three lives. Furthermore, blood is not manufacturable, so only volunteer donors can supply it for those in need.

Peckham is sponsoring another Red Cross blood drive on March 31st at their training center at 49 Arborio Drive, Pleasant Valley, NY. Blood is the best gift one has to offer — the gift of life. Peckham urges anyone who can spare the time to go to Peckham's Training Center anytime from 10:00am to 3:00pm on March 31st and donate blood.

Why Donate Blood?

- **1** donation can potentially save up to **3** lives.
- Every **2** seconds, someone in the U.S. needs blood.
- Blood cannot be manufactured, it **must** be donated.
- Blood has a shelf life, so regular donations are **essential**.

BLOOD DRIVE

Peckham Materials Corp.

.....
Wednesday, March 31, 2021

49 Arborio Drive, Pleasant Valley, NY 12569. The Training Center is ACROSS the street at 49 Arborio Dr. (private road).

10:00 a.m. to 3:00 p.m.

Schedule an appointment to donate at www.RedCrossBlood.org and use sponsor code: Peckham

or call 1-800-RED-CROSS

Peckham Prioritizes Safety

Peckham provides safety training for all of its employees on an ongoing basis through toolbox talks, meetings, and online sources. On an annual basis, our quarry employees are required to complete an eight-hour safety training course that follows the guidelines of the Mine Safety and Health Administration (MSHA). MSHA provides guidance, materials, and assistance to help both operators and miners remain up-to-date and refreshed on safety procedures within mining operations. In addition to training our employees, in the past we have also provided safety training for local highway departments as we partner in providing safe workplaces for all.

Safety Before Production.

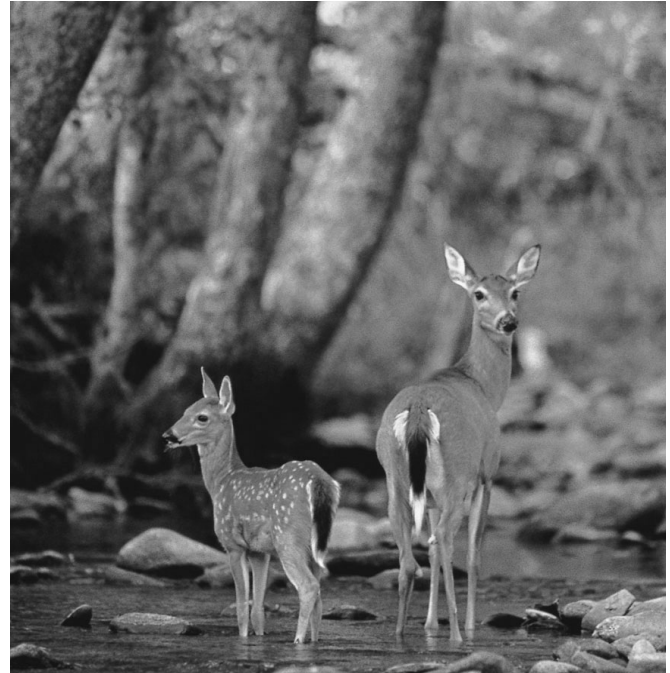

When it comes to safety, Peckham always chooses “safety before production.” While production is vital to success, Peckham understands that safety must come before production. Safety comes before everything — always. Peckham employees are keeping this in mind as they wrap up their annual safety training for 2021.

Peckham Becomes a Member of the WHC

Peckham Industries has recently become a member of the Wildlife Habitat Council (WHC). They are currently working together to identify conservation projects in and around every Peckham facility.

The WHC has implemented various programs that serve and monitor corporate conservation activities around the world. Beyond cataloging WHC-certified programs, the council offers numerous consulting services to better align business goals with biodiversity efforts. Specifically, Peckham is utilizing WHC services to find and include Peckham lands for use in conservation efforts.

While public land protection efforts currently play a dominant role in conservation globally, it is well known that private land efforts are critical components of overall conservation strategies. The WHC serves a vital role in conservation by progressing these private land protection efforts with companies like Peckham through identifying, instigating, and guiding business goals towards this end.
